

The International QEEG Certification Board (IQCB) certifies individuals who meet education and training standards in quantitative EEG and progressively re-certifies those who advance their knowledge through continuing education. Certification by the board indicates expertise in the comprehension of the science underlying the QEEG and its applications.

Become a Certified QEEG Professional

Become an IQCB certified Licensed Diplomate, Diplomate or Technologist, qualified to record EEG, interpret EEG and QEEG, report findings, and recommend interventions based on the analysis of the raw EEG against a normative database.

Visit www.qeegcertificationboard.org for more certification information.
